Subject: Trump

This is just a friendly reminder of the importance of having the particulars of the Trump agreement remain STRICTLY confidential. In particular the amount that was paid and how the deal was established and by whom. These details should remain closely held as I'm sure that the Trump organization would not appreciate this information to be on the street and I believe that it diminishes the effectiveness for us.  
Thanks for adhering to this very important request. Please contact Ann and Alden as I do not have their e-mail address.
